PRESS RELEASE:

THE DEFUNDING OF THE KINSEY INSTITUTE – A LONG TIME IN THE MAKING

Nappanee, IN (February 22, 2023)

Purple for Parents of Indiana thanks Indiana Freshman Representative, Lorissa Sweet, for her courage to bring forth an amendment in the Indiana Statehouse to defund the notorious Kinsey Institute. This effort has been a long time in the making and we are excited to have witnessed history today.

Alfred Kinsey's notorious Table 34 shows the abuse and torture of infants and children who were molested and raped around the clock in order to determine the number of orgasms in a 24-hour period. It's these crimes against children that have laid the groundwork for today's sex education industry.

Sadly, the fraudulent science of Alfred Kinsey is what led to Hugh Hefner founding Playboy magazine and in turn setting into motion an unprecedented decline in American society with pornography.

It is also because of Alfred Kinsey that Indiana is now one of 43 states with a defense to prosecution statute (IC35-49-3-4) that protects schools and libraries against prosecution for the distribution of matter harmful to minors (pornography).

Defunding the Kinsey Institute is an essential step in resetting the course for American society which was ultimately turned on its head by a sexual predator.

We want to thank Representative Sweet for her courage in standing up for the children of Indiana and the future of our state.

PLEASE CALL REP. SWEET AND THANK HER! 800-382-9841
