

FOR IMMEDIATE RELEASE:

RADICAL LEFTIST HATE GROUP, SOUTHERN POVERTY LAW CENTER, HAS ADDED PURPLE FOR PARENTS INDIANA TO THEIR LIST OF HATE GROUPS

Nappanee, IN (June 8, 2023)

The Southern Poverty Law Center, a far left radical hate group itself, has added 12 Conservative organizations to their hate list. Purple for Parents Indiana is honored to be among those twelve groups.

Purple for Parents Indiana has been at the forefront in the culture war for several years now protecting the innocence of children and parents' rights. The organization has acquired numerous victories so far in 2023 including repealing Indiana's long held defense to prosecution statute which allowed public schools to distribute extreme pornographic content to minors. Additionally, Purple for Parents Indiana worked to pass a historical amendment which stopped Hoosier tax dollars from funding the Kinsey Institute on the campus of Indiana University.

These two measures alone have created tremendous backlash from the far left radicals. Purple for Parents Indiana has received numerous threats and acts of intimidation, yet the Communist linked Southern Poverty Law Center has labeled the organization a hate group for simply standing strong against the sexual exploitation, child mutilation and murder of innocent babies and children. It is the Southern Poverty Law Center that is the true hate group and calling out Conservative groups who are working hard to protect innocent children only proves that point.

Purple for Parents Indiana will continue to stand strong against these hideous attacks and will maintain resolve in pushing ahead in the culture war. Parents, grandparents and Conservative activists are encouraged to join forces with Purple for Parents Indiana.

One way to do that is to consider donating here: <https://purpleforparentsindiana.com/donate/>

Help stop the leftist hate by supporting Purple for Parents Indiana!
