

FOR IMMEDIATE RELEASE:

THE GOSHEN NEWS JOINS OTHER “NEWS” OUTLETS IN SPREADING COMMUNIST STYLE PROPAGANDA.

Nappanee, IN - (June 26,2023)

The Goshen News and numerous other Communist propaganda outlets across Indiana aren't exposing hate groups. They're promoting them. When MADvoters called Purple for Parents Indiana “a very extremist group” was that because we oppose the Communist agenda of promoting porn to children? These Communist news outlets partner with people who think that sterilizing and mutilating a minor is loving.

The same Communist propaganda hit piece that appeared in various news outlets quoted an IU professor as a source to smear Purple for Parents. IU's decades-long support of prolific pedophile Alfred Kinsey & the Kinsey Institute's documented crimes against children shouldn't be a trusted resource for any legitimate newspaper. It's important to remember that our state legislature just defunded the Kinsey Institute because of its vile ties to pedophilia and numerous child sex crimes. Yet, these Communist propaganda outlets tout Kinsey's fraudulent science as a basis for justified child sterilization and mutilation.

These Communist propaganda outlets are against family, faith, and community. They parrot their Communist goals in their attacks against Purple for Parents by taking down cultural standards of morality by promoting porn and deviant sexuality ... especially to children.

If you're subscribed to these Communist propaganda outlets, we encourage you to speak with your dollars and unsubscribe. Otherwise, you're fueling the Communist regime.
