

FOR IMMEDIATE RELEASE:

PURPLE FOR PARENTS UNITED ANNOUNCES AN EXECUTIVE DIRECTOR FOR THE
STATE OF GEORGIA.

Nappanee, IN - (January 3, 2025)

Purple for Parents United (formerly Purple for Parents of Indiana) has announced expansion into the state of Georgia with Lori Tootle serving as Executive Director.

Lori brings many years experience not only in the medical field, but also in the field of the sexual revolution and the crimes of Alfred Kinsey. She has a heart and passion for protecting children from not only indoctrination in government education, but from pornography, pedophilia and the harm they bring to the minds of the most vulnerable and impressionable citizens in the state of Georgia.

Purple for Parents United President, Rhonda Miller, had this to say about Lori, "We are extremely excited about adding Lori to our national team. She will be a huge asset as we grow into more states and we look forward to seeing what she does in Georgia".

Below is Lori's bio and statement.

In 2016, Lori Tootle graduated Magna Cum Laude from Liberty University with a Bachelor of Science in Psychology with cognate in Christian Counseling. In 2019, graduated from Liberty University with a Master of Arts in Theological Studies with cognate in Theology. Georgia is one of thirty-four states allowing "educational obscenity exemption," thereby allowing children to access obscene material because the adults have deemed it educational. This is a result of the criminally derived fraudulent "sex science" of Alfred Kinsey who claimed children are sexual from birth from his publication in 1948, "Sexual Behavior in the Human Male".

In Georgia, parents, community citizens, and lawmakers have opposed this disastrous loophole in the law. As Executive Director for Purple for Parents United-GA, I will come alongside those seeking to protect children and will work fervently to further assist in the protection of children.

Lori Tootle, Psych., B.S., M.A.
